Joint Operations Beta Update

Novalogic / Novaworld2 are working on a new Update for Joint Operations.

A Joint Operations **BETA** Update appears at the Novaworld2 Forum.
The **BETA Update** Version is 1.7.0.5 and its only a EXE File.

Update made the following changes:

- Improved Squad Tag Display
- Sorting by Squad Tags at end of game stats
- New Server Sync code to reduces yanks and glitches
- Some enhanced moderator features
- Overall Optimizations
- New DM, KOTH top player HUD display
- 800x600 large map fix
- New Resolutions 1440x900 & 1920x1200 & 1680x1050
- Aspect Ratio correction on sights for wide screen

You can Download the EXE File [here](#)
Dont Forget to make a backup of your Original EXE File
